The award was received by Faisal Mansour Sarkhou, Chief Executive Officer of Kamco Invest, in recognition of the Company's continued excellence and leadership in asset management across the Middle East.

Kamco Invest has assets under management of USD16.5bn invested in various jurisdictions and asset classes including listed equities, fixed income, private equity, and real estate, amongst others. The Company has built a strong track record in asset management, with a diverse range of investment strategies designed to deliver long-term value for clients. The Company's regional strategies continue to rank among the top performers, across both country-specific mandates in Kuwait and Saudi Arabia as well as broader regional investment strategies.

Furthermore, the investment banking team has also played a pivotal role in executing major capital market transactions across the region. The team has successfully led and managed 14 debt capital market transactions in 2025 totaling USD7.0bn. The transactions consisted of thirteen sukuk and bond issuances for financial institutions and corporates in Kuwait, Saudi Arabia, United Arab Emirates and Qatar in addition to one liquidity management transaction for a Kuwaiti company

The Company's success is driven by the talent and commitment of its investment professionals, who continuously analyze market dynamics, identify opportunities, and implement innovative solutions to meet clients' evolving needs.

Commenting on this recognition, Sarkhou said, “This recognition stands as a testament to the dedication, depth of expertise, and unwavering commitment of the teams at Kamco Invest. Their collective efforts have been instrumental in strengthening the firm’s position as a leading regional powerhouse in asset management and investment banking, underpinned by a disciplined investment approach, strong governance, and a continued focus on delivering long-term value to clients.”

He added, “Our clients continue to adopt a long-term investment mindset, recognizing that periods of market uncertainty often present attractive opportunities, particularly for investors with available liquidity. Across the region, investors are becoming more sophisticated and increasingly informed, with a growing shift toward thematic investing and well-diversified portfolio strategies.”

This evolution in investors’ needs is underscored by the rising prominence of fixed income as a core asset class, alongside the growing emphasis on constructing well-balanced portfolios, where diversification plays a central role in navigating market dynamics with resilience and discipline.

Sarkhou concluded, “We remain firmly focused on continuously strengthening our capabilities and expanding our client offerings through strategic partnerships with leading international asset managers. These collaborations enhance our ability to deliver differentiated solutions and global expertise tailored to our clients’ evolving needs. Most recently, our strategic partnership with PGIM, concluded earlier this month, represents another important milestone in this journey. We will continue to pursue partnerships that reinforce our long-term vision and create sustainable value for our clients.”

Kamco Invest remains dedicated to expanding its market presence, enhancing its investment offerings, and continuing to serve clients with excellence. It acknowledges this achievement as a shared success, made possible by the expertise, dedication, and teamwork of its professionals.

Kamco Invest was recognized among top asset managers in the Middle East by Forbes Middle East for 2026. The award ceremony was held in Abu Dhabi on the sidelines of the Top Advisors & Investors Summit, a gathering that brought together senior leaders, decision-makers, and experts from across the regional and global financial community.
