شراكة استراتيجية بقيمة
500,000,000

لتطوير برج متعدد الاستخدامات المطل على مشروع المسار الرياضي

The partnership targets the development of one of only six towers permitted overlooking the 135-kilometer Sports Boulevard corridor, positioning the project as a rare, institutionally structured investment opportunity within one of Saudi Arabia's most ambitious urban transformation initiatives. Strategically located between Riyadh's sports and entertainment destinations and directly opposite Imam Mohammad Ibn Saud Islamic University, the tower will integrate a metro station entrance linking the Yellow and Purple lines within the building itself. Its design reflects the Sports Boulevard's Salmaniyah urban code, combining architectural identity with smart infrastructure and seamless connectivity. The development aligns with Saudi Vision 2030 and contributes to enhancing quality of life in the capital through innovative real estate projects that integrate urban planning, infrastructure, and advanced logistics.

Commenting on the partnership, Mohammed Al-Faris, Chief Executive Officer of Kamco Invest – Saudi, said, "This partnership marks an important step in Kamco Invest – Saudi's expansion strategy as we continue to pursue high-quality, institutionally structured opportunities within the Kingdom. The Sports Boulevard is a transformative national project, and our participation in developing Badié Tower reflects our commitment to investing in landmark assets that deliver long-term value to our clients while contributing to Saudi Arabia's urban evolution."

He added, "The project's unique location, infrastructure integration, and scarcity value create a compelling investment proposition. Through this partnership, we aim to provide institutional and high-net-worth investors access to differentiated real estate opportunities aligned with the Kingdom's long-term growth and diversification agenda. Expanding our clients' access to alternative investment opportunities further supports their unique objectives, enabling us to structure customized solutions that suit their diverse investment needs and risk appetite."

Dr. Abdulaziz Alangari, Chief Executive Officer of Badie Investment, commented, “Badie Tower represents a rare opportunity to develop an architectural icon within one of the world’s most ambitious urban initiatives. Our collaboration with Kamco Invest – Saudi brings together investment expertise and development vision to deliver a landmark project that enhances quality of life and supports Riyadh’s transformation into a global destination.”

Dr. Alangari added, “We are committed to creating a development that integrates smart infrastructure, connectivity, and design excellence. This partnership reinforces our shared vision of building sustainable, future-ready assets that serve both investors and the wider community.”

The partnership reflects Kamco Invest’s continued expansion in the Kingdom and its focus on developing institutionally structured investments that support economic diversification and private sector enablement in line with Vision 2030.

Kamco Invest announced the partnership with Badie Investment to establish a SAR 500 million real estate investment fund to develop the iconic “Badie Tower” overlooking Riyadh’s Sports Boulevard project.
